Montague Whishaw Audio and Music Technology Graduate

Email: monty.whishaw@gmail.com | Location: Bristol/Bath, UK | LinkedIn.com/in/MontagueWh | GitHub.com/MontyWh | Portfolio URL: montywh.github.io

Personal Profile

Recent graduate in Audio and Music Technology at the University of the West of England (UWE Bristol), seeking a role in an audio team with a strong teamworking and training ethic, to develop and contribute existing skills in audio software development.

- Software development skills cover C++ (JUCE), DSP, Unity/C#, FMOD, and MaxMSP.
- Web and data skills span JavaScript (Three.JS), HTML/CSS, JSON, Ruby, and Blender.
- Audio engineering skills feature Pro Tools, Reaper, Logic, Studio One, MuseScore, and Fender Studio.
- Sound experience covers Q-Lab, DAWs, mixing desks, 5.1.2/7.1.4 surround formats, and ambisonics.
- Collaboration experience extends across agile environments, technical documentation (PDF/presentation), Discord, Zoom, and Gather Town.
- Technical strengths extend to proficiency in Microsoft Office and specialisation in interactive/spatial audio for VR and immersive media.
- Qualifications comprise BECTU Starting Safely certification (ScreenSkills) and Duke of Edinburgh (Bronze).
- Interests span performing electric guitar (Rockschool Grade 7+), 5-string bass guitar, synthesisers, drum machines, samplers, and jazz piano (Grade 1).
- Additional activities range across sailing, canoeing, hiking, and mountaineering.

Education

University of the West of England | Bristol, UK

BSc (Hons) Audio and Music Technology [J932] *September 2022 - August 2025*

- Relevant coursework covered Audio Post-Production, Audio for Games, Architectural Acoustics and Advanced Technologies.
- Key achievements featured developing bespoke audio/AV software and plugins using C++ (JUCE), Three.JS, and C#, integrating DSP and synthesis.
- Audio software experience covered hands-on use of industry technologies such as Pro Tools, Reaper, Unity, FMOD, and MaxMSP.
- UI design work focused on creating textures and materials for 3D models in Blender for a virtual gramophone audio plugin GUI.
- Designed soundscapes for film and games, including a full redesign of a Chernobyl scene using surround sound, dialogue editing, and foley; achieved a 2:1 grade.
- Built virtual instruments in MaxMSP, including a software synth, sampler, and drum machine, plus custom microcontroller devices for real-time parameter control.
- Used VR development and spatial audio techniques to create fully immersive experiences, blending music composition with SFX and atmospheric layers.
- Musical composition drew on advanced music theory and proficiency in guitar, bass, and synthesisers to compose original scores using Logic, MuseScore, and Fender Studio.
- Prototyped an immersive VR Digital Audio Workstation in Unity for a Meta Quest 2, with spatial audio playback, haptic feedback, and a 3D timeline interface.

St Brendan’s Sixth Form College | Bristol, UK *September 2019 - July 2021*

- *BTEC (Level 3) Music Performing*
- *A-Level Music Technology*
- *BTEC (Level 3) IT*

Relevant Experience

Student | Step-Up Work Experience, Amazon, UK
June 2026

- Gained practical work-readiness through ten CPD-accredited modules and applied them in AI labs, team challenges, and structured mentor shadowing across Amazon's fast-paced environment.
- Amazon may in the future gain a motivated employee offering fresh perspective to their team with the refined ability to inspire future talent, strengthen innovation, and widen access to digital skills.

Bar Staff | Lansdown Cricket Club, Bath, UK
March 2026 - Present

- Customer service work cultivated a strong community atmosphere by providing personalised service to around 50 club members and visitors daily, building rapport by learning names and preferences while efficiently managing high-volume drink orders.
- Maintained operational efficiency and cleanliness by managing snack and beverage inventory, providing table service, and restocking and cleaning public areas.

Volunteer | Social Committee Member | CircleUp, UK *January 2026 - Present*

- Mascot for the local Bath community for CircleUp, creating the high-energy, inclusive environments necessary to convert digital subscribers into active, real-world communities.
- Co-host Friday night pub socials, interact in member chats, and actively break the ice for new or solo attendees to ensure immediate comfort and safety.

Volunteer | Audio Developer Conference; Bristol, UK *November 2024 & November 2025*

- Event preparation facilitated seamless event logistics by overseeing a high-volume cloakroom and pre-sorting lanyards for over 2,000 guests and speakers.
- Coordinated safe transport of audio equipment between rooms under tight schedules and reorganised cloakroom storage to restore safe capacity.
- Provided onsite audio and IT support for speakers, including hardware setup, livestream monitoring, and help with Discord, Zoom, and Gather Town.
- Hospitality responsibilities centred on acting as a primary point of contact for attendees, directing them to sessions and co-monitoring onsite information hubs.

Floor Staff, Cleaner & Game Host | Boom Battle Bar, Bath, UK *November 2025 - March 2026*

- Activity hosting covered running competitive social games such as shuffleboard and AR darts and delivering hospitality for 10-70 guests per shift.
- Customer service extended to supporting food running, table service, and venue tidiness during late-night closes.
- Hospitality responsibilities spanned welcoming 10-70 customers in the venue at a time and operating 3 to 10 games per night (excluding axe throwing).
- Took on high-demand Saturday and late-night closing shifts after building trust through reliable weekday performance.

Montague Whishaw Audio and Music Technology Graduate

Email: monty.whishaw@gmail.com | Location: Bristol/Bath, UK | LinkedIn.com/in/MontagueWh | GitHub.com/MontyWh | Portfolio URL: montywh.github.io

Intern | Government Digital Service; The Whitechapel Building, UK *June 2025 - August 2025*

- Produced clear technical guidance and presentations for automating forms processing across UK government departments.
- Worked with cross-functional teams to ensure technical documentation met government standards and user needs.
- Self-learning covered webpage creation (Ruby on Rails, etc.) and forms processing.

Assistant Theatre Sound Engineer | Great Gatsby Play; Revolution, Bristol, UK *May 2025*

- Q-Lab and SFX operation covered running SFX and video cueing and handling audio equipment for a live production attended by around 80 audience members.
- Technical support focused on diagnosing and resolving technical delays and equipment failures prior to the show to deliver a smooth audio performance.

Sound Designer | Global Game Jam 2025; UWE Bristol, UK *January 2025 - February 2025*

- Music composition centred on creating original scores and adaptive themes using Logic, Studio One, and MuseScore for the game ‘BobaQuarium’.
- Audio implementation focused on programming and implementing the adaptive soundtrack in Unity/C# and FMOD, applying DSP code for fluid gameplay response.
- Sound design and post-production covered managing audio recording, mixing, and synthesis across a full game soundtrack under complex development cycles.

Cabin/Camp Counsellor, Guitar Coach & Assistant Theatre Sound Engineer | Camp America, USA *June 2024 - August 2024*

- 24/6 cabin care required coordinating early-morning, lunchbreak and evening youth cabin care for groups of 8 to 12 campers, alongside technical theatre operations.
- Combined theatre sound work with one-to-one guitar coaching, supporting performances while maintaining a safe and positive environment for campers.
- Problem solving resolved live technical failures when guitar leads and XLRs failed mid-performance, restoring audio and preventing show disruption.
- Physical preparation covered setting up and cleaning camp facilities prior to opening and completing a nine-week contract supporting day-to-day operations.

Hospitality Staff & Kitchen Porter | Lime Hospitality, Bath, UK *June 2021 - May 2024*

- Multi-venue experience ranged across high-profile venues including Bath Rugby, Bailbrook Hotel, and Bath & Chepstow Racecourses, maintaining pace and service standards during peak demand.
- Customer demand ranged from dining service to weddings and banquets for 20 to 150 guests.
- Maintained service for up to 500 customers daily under strict hygiene standards at Bath Spa University’s Refectory.

Front-of-House & Back-of-House Staff | Pizza Express; UK *August 2021 - December 2022*

- Multi-branch commitment meant handling high-volume service across branches as Food Runner and Kitchen Porter.
- Provisions and cleanliness covered operating the potwash area, dishwashing, deep-cleaning, and restocking ingredients.

- Customer service ensured food reached tables promptly to maintain a steady, high-standard flow of service.

Trading Assistant | Sainsbury's PLC; UK *December 2021 - May 2022*

- Constant supply was maintained by handling stock rotation through code-checking product dates, replenishing shelves, and upholding store standards.
- Multi-discipline support extended to helping customers at checkouts and maintaining a professional and efficient point-of-sale experience during busy periods.

Additional Experience

Society Founder & Former-Committee Member | Society of Musicians; University of the West of England, UK
October 2022 - August 2025

- Founded and presided over the society to unite the local music community.
- Led collaborative rock jams as guitarist and bassist, helping grow 100 sign-ups into an active core member base.
- Set up a committee structure and Discord communication system to support the society's long-term growth.
- Scheduling focused on managing a consistent calendar of socials, professional gigs, and open-mic events.

Costa Rica Volunteer | Raleigh Costa Rica *July 2022 - August 2022*

- Language instruction combined constructing a school classroom for a rural indigenous school with providing English classes and activities.
- Trek preparation covered daily planning, task delegation, and safety briefings for a small team of peers in high-pressure environments.
- Led a team through a 17-day mountain trek, using clear communication and adaptive problem-solving in challenging conditions.
- Navigated with outdated maps and adjusted routes when terrain features were missing or overgrown.
- Interpersonal skill awards resulted in five award nominations, including Best Team Player and Most Positive Team Person.
